

# Deafening

Solence

You got some problems  
You got some shit  
That you been hoping to get rid of  
I got the team  
We're going in and we got no concern  
Cause we know we bout to fucking rock your world  
With a taste of  
Burning gasoline

My oh my  
The feeling that we bringing  
Pumping like adrenaline  
It's deafening

Oh my God  
A thousand people singing  
Screaming as we're marching in  
Is deafening

I want it louder  
I wanna hear  
A million fucking decibels  
Going right in my ear

Me and my brothers we are maniacs  
Making sure you never forget that

Deep your body and deep in your bones  
You can feel it you hear it you know that it's coming yeah

My oh my  
The feeling that we bringing  
Pumping like adrenaline  
It's deafening

Oh my God  
A thousand people singing  
Screaming as we're marching in  
Is deafening

And they all start to sing  
Is deafening  
When the crowds marching in  
Is deafening  
God, I have never heard something so pure beautiful gimme more let me hear  
It's deafening  
Last time

My oh my  
The feeling that we bringing  
Pumping like adrenaline  
It's deafening

Oh my God  
A thousand people singing  
Screaming as we're marching in  
Is deafening
