

# Demons

Solence

With one hand on my shoulder  
They tell me how to feel  
Make me start to question  
What is really real  
They take me into nightmares  
While I'm not asleep  
And take away all reason  
So I'm not thinking clear

When nighttime comes it's me and my...

Demons (demons)  
Inside my head  
Sleep in my bed  
Me and all my demons (demons)  
Right by my side  
Night after night  
It's me and all my...

Little tiny devils  
With hands around my neck  
And every single night they  
Are always coming back  
And they'll be saying like  
"Hey Markus, don't forget us  
You know that thing you did 12 years ago  
Well, I'm gonna bring that up right now  
So you can think about it while you're trying to sleep here, hah"

I'm so fucking sick of this shit  
Shut up!  
I don't need you in my life  
I need you to go away  
Right now! Right now!

Still when nighttime comes it's me and my...

Demons (demons)  
Inside my head  
Sleep in my bed  
Me and all my demons (demons)  
Right by my side  
Night after night  
It's me and my demons

(Alright)  
I can't shut it off  
Can't take it down  
Every single thing that goes on in my mind  
Is me versus me  
Repeat and rewind  
But I'm still going in counting 3... 2... 1

Demons (demons)  
Inside my head  
Sleep in my bed (in my bed)  
Me and all my demons (demons)

Right by my side  
Night after night  
It's me and all my...
