Heaven

Solence

(I think we could reach heaven
If we go through hell
And trust each other)

I wanna give you my life
If you're joining this ride
I could tell you my secrets

Oh you just need to let go
I can give you my soul
Have you tear it to pieces

And we could go up
Ey oh we get around
Keep on climbing up
And never down
We could never stop
My sacrifice
I'll sacrifice

I think we could reach heaven
If we go through hell
If we go through hell
And trust each other
We could ring the bells

I think we could reach heaven
If we go through hell
If we go through hell
And trust each other
We could ring the bells

There's nothing left to be said
Fucking fight till we're dead
They can never defeat us

I'll tell my lies and you cheat
When we're facing the heat
Nothing can come between us

And we'll be coming up
Ey oh we get around
Keep on climbing up
And never down
We could never stop
I'll sacrifice
I'll sacrifice it all

I think we could reach heaven
If we go through hell
If we go through hell
And trust each other
We could ring the bells

I think we could reach heaven
If we go through hell
If we go through hell

And trust each other
We could ring the bells

Cut us down in the dark
(Cut us down in the dark)
Push a pole through our hearts
(Push a pole through our hearts)
Yeah we are willing to die
(Yeah we are willing)
Sing, AMEN

Cut us down in the dark
(Cut us down in the dark)
Push a pole through our hearts
(Push a pole through our hearts)
Yeah we are willing to die
(Yeah we are willing)
Sing, AMEN

I think we could reach heaven
If we go through hell
If we go through hell
And trust each other
We could ring the bells

I think we could reach heaven
If we go through hell
If we go through hell
And trust each other
We could ring the bells
