

# Heavy Rain

Solence

I feel it pouring down  
Cover my eyes  
And I cannot make a move

It's like I'm hypnotised  
I open up  
And I let the water through

I'm in heavy rain  
Yeah I feel it washing down on me  
I'm in heavy rain  
Yeah the waters taken over me  
And I feel the lightning go through  
Yeah I'm one with the thunder  
I'm in heavy rain  
Yeah I feel it washing down on me

Yeah now I'm soaring high  
And from above  
There's a different point of view  
And for a moment I  
Start to believe  
That there's nothing I can't do

When I'm in heavy rain  
Yeah I feel it washing down on me  
I'm in heavy rain  
Yeah the waters taken over me  
And I feel the lightning go through  
Yeah I'm one with the thunder  
I'm in heavy rain  
Yeah I feel it washing down on me

Skies falling down  
Clouds starts to bleed  
Hold up my arms  
And fall to my knees  
Now I can see  
That all that I need  
Is buried in me

I'm in heavy rain  
Yeah I feel it washing down on me  
I'm in heavy rain  
Yeah the waters taken over me
