

We need some new blood
Shake off the old rust
Throw out the cynical, the typical
'Cus it's the only way
The pattern will ever change

We need a new high
To keep our eyes wide
An antidote for the poison
That's eating us alive
It's killing us inside

So drain
Infection out of our veins
Don't wanna hear the complaints
I think we're softening up

We need some new blood
Drain it all out
Let it flow out like a flood
Dripping on my skin
There's a new blood coming in

We ask why, you tell lies
It's never changing
Empty minds, scattered eyes
There's nothing you can do to save yourself now
You just let us all down

I hate the way
All you wanna do is take away
Everything that makes me sane
So burn this to the ground

We need some new blood
Drain it all out
Let it flow out like a flood
Dripping on my skin
There's a new blood coming in

There's a new blood coming in
There's a new blood
Like a flood
Dripping on my skin
There's a new blood coming in

Waking up to see the world
Burning in flames
We need some new blood in it
We need something to change!

Go!

Do you hear us?
Do you hear what we say?
We are tired of this shit
Need some new blood in our veins

We want some new blood!

Huh?!

New blood!

What?!

New Blood!

We need some new blood

Drain it all out

Let it flow out like a flood

Dripping on my skin

There's a new blood coming in

There's a new blood

Oh, there's a new blood

Like a flood

Dripping on my skin

There's a new blood coming

In!
