

Pump More Life

Solence

Spinning round and round
Playing songs that can get you off my mind
The only comfort that I have ever found
Signing off leaving pieces on the ground
Walking down the lonely road
Cannot stop I have lost all control
Take me somewhere I can breathe again

The light between us fades
When you're the sun I'm in the shades
Make me believe that you're here with me or I'm gone

Pump more life into my veins
I need to feel something again

For the last time
Let me get away
Can't escape this nightmare
I can't stay

Shouting out but you're not hearing me

The light between us fades
When you're the sun I'm in the shades
Make me believe that you're here with me or I'm gone

Pump more life into my veins
I need to feel something again
Feel something again

Pump more life into my veins
I need to feel something again
Pump more life into my veins
I need to feel something again
