Rain Down

Solence

We've been reborn, we're the new generation
Solence mk2, now without limitation
Used to be afraid, but turned that into power
Come light, come light, come rain and thunder

Rain down, let it rain on me
Wash off all the misery
Sky fall, let it rain on me, on me, on me, on me
Rain down, let it rain on me
Wash off all the misery
Sky fall, let it rain on me, on me, on me, on me
On me

Rain down
Rain down

We've had enough, we woke up from our sleep
We got up, made a drink, now we're back on our feet
It's been a lot (it's been a lot), but you better believe
That I won't let, I won't let that get the best of me

Rain down, let it rain on me
Wash off all the misery
Sky fall, let it rain on me, on me, on me, on me
Rain down, let it rain on me
Wash off all the misery
Sky fall, let it rain on me, on me, on me, on me
On me, on me, on me, on me
On me, on me, on me, let the rain fall
Let the rain fall

Water flows from my tired eyes
You can pray for your sins, but it is over now

Now we're free, we gon' celebrate
We have finally made it through all the mist and haze
And the skies started pouring down
And for the first time in forever I feel so alive

Rain down, let it rain on me
Wash off all the misery
Sky fall, let it rain on me, on me, on me, on me
Rain down, let it rain on me
Wash off all the misery
Sky fall, let it rain on me, on me, on me, on me, on me
