Take Over

Solence

We at the top again, now what?
Heavy lay the crown, but count us higher than the mountain
And we be up here for the long run
Strap in for a long one
We got everybody on one

Now you're coming at the king so you better not miss
And we only get stronger
With everything I carry up on my back
You should paint it up with a target

Why would you tell me to do it again?
Come get your spoiler up ahead

We're taking over
We're taking over, oh
Look at you come at my name, you oughta know by now
We're taking over
We're taking over, oh
Maybe you wonder what your future's gonna be, but
I got it all locked up

Take a lap, now
Don't be mad, now
Run it back, run it back, run it back, now
I got bodies lining up
Think you're dreaming of greatness
Send you back home, let you wake up

Why would you tell me to do it again?
Come get your spoiler up ahead

We're taking over
We're taking over, oh
Look at you come at my name, you oughta know by now
We're taking over
We're taking over, oh
Maybe you wonder what your future's gonna be, but
I got it all locked up

I got the heart of a lion
I know the higher you climb, the harder you fall
I'm at the top of the mount
Too many bodies to count
Been through it all

I had to weather the storm to get to the level I'm on
That's how the legend was born
All of my enemies already dead
I'm bored, I'm ready for more
Ready for more

'Cause we're taking over, oh
Look at you come at my name, you oughta know by now
We're taking over
We're taking over, oh
Maybe you wonder what your future's gonna be, but

I got it all, all locked up
