

Grow

Sóley

I descend from hundreds of fights
I'll be gone before storytime
Little by little we stare at
Lovers that dream of the fight
Bad enough I wanted to be
Can I grow back to you?
Little by little together
We fight for our dreamless life

Soon it's over, I go home
Adventures truly come and go
Heart by heart, turning cold
Before they grow and hit too low
We grow and then we die
We grow and then we die

And I will always be the one to go
Yes, I will always be the one to go

Another life of hope
The years went by, I stayed awake for you
Our time, a dreamless life
My only chance to write a song for you

Soon it's over, I go home
Adventures truly come and go
Heart by heart, turning cold
Before they grow and hit too low
We grow and then we die
We grow and then we die
We grow and then we die
We grow and then we die

And I will always be the one to go
I will always be the one to go
