

# Never Cry Moon

Sóley

Sleep while you shall  
Reach out for darker nightmares  
Are fine  
I won't go back  
Stay for a while  
Lead me away from the night

Nothing to fight  
Empty is forest  
No one can hear the sound of your tears  
Stay for a while  
Lead me away from the night  
I'll make you happy

Hiding makes you not disappear  
Hiding makes you not disappear

Queen of the night of fading ghost  
Above the ocean I won't go  
Queen of the night of fading ghost  
Queen of the night of fading ghost

Free me, I want to ride  
I feel for light  
And I'll make you happy

Hiding makes you not disappear  
Hiding makes you not disappear  
Hiding makes you not disappear  
Hiding makes you not disappear
