

Diamonds Are Forever

Solid Base

I dreamt of you and me together
In another time, another place
You said that diamonds are forever
And you knew that love would find a way
I can't believe it's true
I know it's just a dream
But maybe someday we could be
Together, you and me.

(Refren)

But I will never cry for you
'Cause diamonds are forever
I know that love will find a way
I know that diamonds are forever
It's crazy but it's true
I save my love for you

I know that we should be together
Take my hand and I will show you how
It's true, our love will last forever
Take a chance to be with me here and now
So just believe it's true
Don't ever let me down
'Cause I have all my faith in you
Together, you and me

(Refren)

But I will never cry for you
'Cause diamonds are forever
I know that love will find a way
I know that diamonds are forever
It's crazy but it's true

But I will never cry for you
'Cause diamonds are forever
I know that love will find a way
I know that diamonds are forever
It's crazy but it's true
I save my love for you

(music)

But I will never cry for you
'Cause diamonds are forever
I know that love will find a way
I know that diamonds are forever
It's crazy but it's true

But I will never cry for you
'Cause diamonds are forever
I know that love will find a way
I know that diamonds are forever
It's crazy but it's true
I save my love for you
