

Mother Earth

Solid Base

Mother Earth, Mother Earth
..... somewhere in this world
I just want to believe, Mother Earth
That one day we will say
That we care about this world
And we'll do what we can to survive

I remember the times
When we didn't have to pray
Just so we can see another good day
But that's not how it is anymore
There's a lot going on but what's it all for
I don't know but I wish I that I did
Cus what kinda of future will I lead for my kid right now
The only thing you'll find is the future that's going out of its mind

Mother Earth, Mother Earth
Tell me what is wrong cus everywhere I look
There's a war going on so why can't we learn
And why can't we see
Now what's going on, it's hurting you and me
So let's come together and show our mother
that she's the only one cus there is no other
So let's make an effort to make it work
Living on this planet that we call Earth

What are we doin', what don't we care
Cause the green... is all we share
I wonder how and why we don't see
That's we're ruining the place where we all wanna be.

Mother Earth, Mother Earth
Tell me what is wrong cus everywhere I look
There's a war going on so why can't we learn
And why can't we see
