Obladi Oblada

Solid Base

In the promise land
We join our hands
In the promise land
We join our hands
And we all will fight forever

Love and devotion
The man with the notion
Here on the track
To put your body in motion
It's realistic,
Just watch as I kick this
And take you to a place
That is kind of mystic

In the promise land
We join our hands
And we all will fight forever and ever
In the promise land
We join our hands
And we all will fight forever
He says :
Obladi oblida
Wake me up tonight
Obladi oblida
Fun till the morning
Obladi oblida
Wake me up tonight
Obladi oblida
Fun is the part of the night

It's the rappers Capone
Rocking the microphone
We're on a mission
Takin into a new song
So let's get together
It's now or is never
Cus what we have
Might last forever

In the promise land
We join our hands
In the promise land
We join our hands
And we all will fight forever
