

Perfect Melody

Solid Base

Going up in pieces down to dust
Don't know how the beat is fast
I've been pitching up and pitching down
Nothing on my mind

I've been searching for a perfect melody
I've been looking all around for harmony
I've been searching for a perfect melody
I've been looking for the melody

Going up in pieces down to dust...

I've been searching for a perfect melody
I've been looking all around for harmony
I've been searching for a perfect melody
Perfect melody in my memory
I've been looking for a harmony
It's a mystery
I've been looking for the melody
