

The Right Way

Solid Base

Yeah come on represent, alright Here we go

What can I do about my life When will I get what I'm waiting for
or I'm looking for pressure I don't need the pain Soon I can't
take it any more It's hard to get it of my mind I still believe
I have to try Will I get it right this time If I won't I wonder why

refrain: How will you find the way How will you get it right I
just wonder how How will I ever find

refrain2: The right way How will I ever find the right way How
will I find How will I ever find the right way How will I ever
find the way

Now that I think about it again How will I ever find the way Where
can I get this message through I have tried so many days

Yeah alright breakin all down

I can't get it of my mind I still believe I have to try Will I
get it right this time Will I ever find Will I ever find the way
