

# Hold On Tight

Solomon Burke

When you don't know what to do  
And your mind is getting dark  
And the fire that was burning  
Has been reduced to smoke and a spark  
Every time things get hard  
And you're worried right down to the bone  
You carry on with what you know  
You know, You're not alone

Hold on ...  
Hold on tight  
Hold on tight  
Hold on tight with all your might  
And don't let go  
No no no, don't let go

When you don't know really what to do  
And your heart seems to skip a beat  
When you don't know which way to move  
White heat starts to burn your feet  
Don't leave me here by myself  
I can't make it on my own  
What would I do without you  
I want you to know, together we understand  
We're not alone  
Don't let go, No no no no, don't let go

Hold on tight  
Hold on tight  
Hold on tight  
Whatever you do, please  
And don't let go

No matter how hard the times  
We have to carry on  
When you don't know really what to do  
I want you to remember, in this life  
You're not alone

Hold on tight  
Hold on tight  
Hold on tight, hold on tight, hold on to me  
And don't let go

Hold on tight  
Hold on tight  
Hold on, hold on, hold on tight, with all your might  
And don't let go
