

When She Touches Me (Nothing Else Matters)

Solomon Burke

She's mean to me
She's so bad to me
She's using me
Often refusing me
But when she touches me
The way she touches me
Nothing else matters
(Nothing else matters)

She cheats on me
Makes a fool out of me
Spends all my money
And have the nerve to run around
But when she touches me
The way she touches me
Nothing else seems to matter

She's using me
Abusing me
And just the thought of it
Tears me up inside
I know she's using me
She's even talking about me
But let me tell you
When she touches me
Everything is alright

I should leave her
Deceive her
Try to talk around
Just to get back at her
But oh when she touches me
The way she touches me
Nothing else matters

And you don't have to believe me
If you ever love someone
And they hurt you so bad
And you needed the love so much
Just about to drive you mad
