

Words

Solomon Burke

There are words that can make you happy
And there's words that can make you sad
And sometimes there's words that can cause confusion
And there's a few words sometimes regret

Oh there's three words
That I long to hear
Especially if they're true
If you mean it, let me hear you say it (I love you)
Oh oh yeah (I love you)
Right now, right now (I love you, oh)
Yes I do (You know I do)

There's words that can just soothe all aches and pains
And there's words that can make the teardrops fall like rain
And there's a little words that could keep an army from goin' t
o war
But these words oh I've never ever heard before

But there's three words
That just mean so much to me
Especially if they're true
If you mean 'em let me hear you say (I love you)
Right now (I love you)
Oh yes yes (I love you, oh)
Mm yes I do (You know I do)
Just can't deny it (I swear I do)
No doubt about it, baby (Oh yes I do)
Way down in my soul
I want you to know (My love is true)
