Love Is The Devil (And I Am In Love)

Sólstafir

The only joy that I knew Sorrow was here name My tears were for her life But not her death

So now I sleep for ages In obsessive dreams My deeds were all but Laments of my wrath

I overcome dimensions
Through horizons way beyond
I dismember
Dreams in December

Love is the Devil - and I am in Love I think I'm gonna be sad Infinite moonlight now awakes me

Love is the Devil - and I am in Love I think I'm gonna be sad Infinite moonlight now awakes me
