

Deep inside this hole where no life sees  
Emptiness surrounding everything  
Deafening silence speaks, my ears bleed  
Clotting remnants of emotion  
Black

Loathing in my amnesty  
Underneath lucidity  
Drowning in the absence of  
Conscious inner faith  
Submerged in theology  
Breathing in the fluid  
Black

Swimming through the seas of nothing  
Drowning in the waves of absent feeling  
Choking on the fluid that submerges me

I can't see beyond the colors  
Of this blackened mind  
Isolated deep within  
Severed nerves feel nothing  
Choking on the fluid that  
is submerging me
