

Swarm

Solstice

Swarming in From Heaven
Blackening the day
Hand of God is striking down
Written by the insane
Christian Prophecies
Fuel for the hate machine

Suffocate the lungs of
Everything that breathes
Smothering the lives of
All those who believe
Can you see
This Swarming

Devouring the flesh
Tear the Temple down
And bring them to their knees
Panic and submission
Spinning the machine
Supress a free society

Institute the fear
For the insect to feed
Feed upon the weakening
I can see conspiracy
