

## come closer

sombr

If you give a dog a bone, he will follow you home and wait for you

Until he's bored of you

If you call my telephone and leave a note at the tone, I won't ignore you

Been waiting for you

Come closer or stay away

I can't take loving you halfway

I've learned to love the way you taste

The in-between, I cannot take

We're in a dimly lit restaurant on the Lower East Side and you look gorgeous

Yeah, I adore you

You're the only one I want, and I am one of your pawns, you look around the room

To see who looks at you

Come closer or stay away

I can't take loving you halfway

I've learned to love the way you taste

The in-between, I cannot take

Loving you isn't hard

It's letting go that leaves a scar

Do you feel me too in your heart

Or only when I touch your parts?

Come closer or stay away

I can't take loving you halfway

I've learned to love the way you taste

The in-between, I cannot take

Come closer or stay away

I can't take loving you halfway

I've learned to love the way you taste

The in-between, I cannot take

Come closer or stay away

I can't take loving you halfway

I've learned to love the way you taste

The in-between, I cannot take
