You're living in the city
And I'm living in the crevices of your heart
You like to spend your time with me
While you wait for something prevalent to start

I don't seek your pity
Just want the chance to show you I've got more than charm
For you, I'm nothing but a feeling
You're living free, but in a few years I'll do you harm
And I said

Can I get it through to you?
Can I get it through to you?
Can I get it through to you?
I won't waste your time
Can I get it through to you?
Can I get it through to you?
Can I get it through to you?

We can be more than friends
I wanna love you till the end of my life
'Cause you're a ten, and I'm a man that needs a dime
Oh, I

You're on a plane to Europe
And I just know you will do so well overseas
But I just can't seem to cheer up
Knowing you will forget me
And I said

Can I get it through to you?
Can I get it through to you?
Can I get it through to you?
I won't waste your time
Can I get it through to you?
Can I get it through to you?
Can I get it through to you?

We can be more than friends
I wanna love you till the end of my life
'Cause you're a ten, and I'm a man that needs a dime
Oh, I

Is it a crime to care so much for another?
You're left with nothing for yourself
When you're the one who needs help
Ooh

We can be more than friends
I wanna love you till the end of my life
'Cause you're a ten, and I'm a man that needs a dime
Oh, I wanna be more than friends
I wanna love you till the end of my life
'Cause you're a ten, and I'm a man that needs a dime
Oh, I
