

never find u

sombr

I still look for you in everyone but I'll never find

You (ooh-ooh)

Oh there'll never be another one of you

You (ooh-ooh)

Oh there'll never be another one of you

Thought I'd never have a reason to breathe past 17

Till you came in and everything became the silver screen

I still look for you in everyone but I'll never find

You (ooh-ooh)

Oh there'll never be another one of you

You (ooh-ooh)

Oh there'll never be another one of you

Oh I just wanna hold you by the coast

But you're slipping through my fingers like a ghost

We'll watch as the days become years

Cause they'll move on but I'll still be here, I'll still be her
e

For you

I still look for you in everyone but I'll never find

You (ooh-ooh)

Oh there'll never be another one of you

You (ooh-ooh)

Oh there'll never be another one of you
