

# **silhouette**

**sombr**

Maybe we're not so different, but I know we're not the same  
Sometimes I feel distant, but who's to take the blame

Oh darling I'm out of time you're my lifeline  
The sunlight bleeds around your face and I am blind

Your silhouette is all that's left now  
I can't pretend that you didn't let me down (Oh-ooh-oh-oh)  
Now all I see is your silhouette

Thought that love was boundless  
But clearly I was wrong  
Maybe we were meant to be strangers all along

Oh darling I'm out of time you're my lifeline  
The sunlight bleeds around your face and I am blind

Your silhouette is all that's left now  
I can't pretend that you didn't let me down (Oh-ooh-oh-oh)  
Now all I see is your silhouette

(Oh-ooh-oh-oh)  
Watch me fall apart  
I've got my due, it was written in the stars  
(Oh-ooh-oh-oh)  
I've played my part  
I know what's good for you, I wasn't the one from the start

No I wasn't the one  
No I wasn't the one  
No I wasn't the one  
No I wasn't the one

Your silhouette is all that's left now  
I can't pretend that you didn't let me down (Oh-ooh-oh-oh)
