

you're so pretty

sombr

Why are we here?

Why are we here?

You're so pretty, makes me wanna cry

You're so shitty, makes me wanna die

Oh, I know these feelings come and go

Just like the tide, I'm feeling low and high

Oh, I know these feelings ebb and flow

Just like the tide, I'm feeling low and high

(Why are we here?) Look me in the eye

(Why are we here?) What are we tryna hide?

(Why are we here?) Look me in the eye

(Why are we here?)

You're so pretty, makes me wanna cry

You're so shitty, makes me wanna die

Oh, I know these feelings come and go

Just like the tide, I'm feeling low and high

(Why are we here?) Look me in the eye

(Why are we here?) What are we tryna hide?

(Why are we here?) Look me in the eye

(Why are we here?)

Oh, I know I'm not whole

I don't know self-control

Oh, I know I'd give my soul

(Why are we here?) Look me in the eye

(Why are we here?) What do we gotta hide?

(Why are we here?) Look me in the eye

(Why are we here?)
