Something With Numbers

Been waiting for so long
And I never even thought about giving up
And I could see something
I live on and I could feel something
I live on and now those scorching eyes are burning into mine

Don't make a sound, just curl up next to me
And we can breathe the same air and think our thoughts out loud
Don't say a thing, just lay here next to me
And we can breathe the same air and think our thoughts out loud

I wanna say so many things
I'm gonna tell the world how much you mean to me
I could see something
I live on and I could feel something
I live on and now those scorching eyes are burning into mine

Don't make a sound, just curl up next to me
And we can breathe the same air and think our thoughts out loud
Don't say a thing, just lay here next to me
And we can breathe the same air and think our thoughts out loud

We could stay here til sunrise
We could lay here for days
Just you and me and our scorching eyes
Not a word, not a phrase

So please baby, not a sound, just curl up next to me
And we can breathe the same air and think our thoughts out loud
Don't say a thing, just lay here next to me
And we can breathe the same air and think our thoughts out loud

Don't make a sound, just curl up next to me
And we can breathe the same air and think our thoughts out loud
Don't say a thing, just lay here next to me
And we can breathe the same air and think our thoughts out loud
