

That bounce
Here you come
Got the best smile in this town
Give me love
Give me strength
Yeah you're really showing out
You told me that I should brace it
Get down and face it
Drown in your waves
That's a risk I'm down to take yeah

That shine
There you go
Think that you already know
Highlights hittin' me like starlight
You look like you really glow
You told me that I should brace it
Sit down and face it
Drown in your waves
That's a risk I'm down to take
Yeah

Right on time
I think you're fine
A dime, a dime
Maybe, might've
Seen you round
A sign, a sign
Girl you make me feel like
I am flyin', flyin'
Let me show you
Why I'm tryin', tryinahhh

Right on time
I think you're fine
A dime, a dime
Maybe, might've
Seen you round
A sign, a sign
Girl you make me feel like
I am flyin', flyin'
Let me show you
Why I'm tryin', tryinahhh

Pop the cognac
We should just drive to the coast
I've been dreamin' of this moment
Yeah I need you the most
By my side in the Ghost like I'm Gotti, yeah
Burnin', burnin' like you drank hottie tottie, oh
And I love the way your hair is blowin'
When we're rollin' down 35
You're the one I
You're the one I prayed for
All my life

Right on time

I think you're fine
A dime, a dime
Maybe, might've
Seen you round
A sign, a sign
Girl you make me feel like
I am flyin', flyin'
Let me show you
Why I'm tryin', tryinahhh

Haha
Oooo whoaa

You been choppin'
Steady droppin'
Keep on poppin'
Pulses boppin'
Turn that thing on

Right on time
I think you're fine
A dime, a dime
Maybe, might've
Seen you round
A sign, a sign
Girl you make me feel like
I am flyin', flyin'
Let me show you
Why I'm tryin', tryinahhh

Right on time
I think you're fine
A dime, a dime
Maybe, might've
Seen you round
A sign, a sign
Girl you make me feel like
I am flyin', flyin'
Let me show you
Why I'm tryin', tryinahhh
