

Maybe

SoMo

Hang the mistletoe
You've been waiting
Acting so damn impatient
The snow falls down

Hollow
Dazin'
Miss me
Hate it's been so long since you put all the things that you want in your stocking

Maybe I should take another breath
Maybe I should make another step
And fall in
Maybe I should take another left
Turn around and drive back to your step
Go all in
Scarves, garland, and lace
You needed my presence
I'm present today
You wanted a holiday song
I hope that I don't get it wrong and you like what I wanted to say

Maybe I should take another breath
Maybe I should make another step
Maybe I should take another left
Maybe I should make another step

I've been sick
So sedated
Time keeps moving it ain't waiting
And the snow falls down

Been so cold I missed the signs
I passed you by
I need your light
I'll see you there

Maybe I should take another breath
Maybe I should make another step
And fall in
Maybe I should take another left
Turn around and drive back to your step
Go all in
Scarves, garland, and lace
You needed my presence
I'm present today
You wanted a holiday song
I hope that I don't get it wrong and you like what I wanted to say

Maybe I should take another breath
Maybe I should make another step
And fall in
Maybe I should take another left
Turn around and drive back to your step
Go all in
Scarves, garland, and lace

You needed my presence
I'm present today
You wanted a holiday song
I hope that I don't get it wrong and you like what I wanted to say
