

Petals

SoMo

Whoa, no-no
Yeah-yeah, yeah

Got the rose petals on the floor
Girl, I know that you've been needing more
Come here, let me fuck your body right
You deserve it every single night, yeah-yeah, yeah
Wine glass, bubbles in the tub
Girl, I know that you've been needing love, oh yeah, yeah
Come here, let me touch your body right
You deserve it every single night

Undress your clothes, confess your soul
On your back, I'm back on track, girl, when you're close (Oh)
Having visions, got a mission in my sight (Sight)

Uh, right, rose petals, gold metal
Don't hold back when you come
No fading, full throttle
Hold on tight to the gun
I like it, I love it
How you glide that um mm
I like it, I love it
When you ride that tongue
What section of your body should I show the light?
Tell me what you want, baby, we could improvise
Know you're tired of being sad (Yeah)
I'm gon' give you everything and make it last
