

Remember You

SoMo

[Verse 1:]

She's about to earn some baggin rights
I'm bout to give it up like I've been all that act all night
Girl take pride in what you wanna do
Even if that means a new man every night inside of you
Abby I don't mind, you can feel by how I roll
Cause my clique out and my tuck on, my tongue cert cause I'm so thrown
I might disrupt my last show
And he's Cody and I'm Somo
I'm only here for one night, then I'm a be a memory
Say it in my ear so I can hear wutchu say to me
Ya gots fooled, I'm blowing things
Smoke anything that's passed to me
Don't worry bout my boys, I won't need it for what I'm about to do to ya

[Chorus: x2]

Bad bitch, girl I think I might get used to ya
I'm gon have to take yo number when I'm through with ya
All I ask of you is try to earn my memory
Make me remember you like you remember me

[Verse 2:]

I was signing this, 2013 climbing fast
Straight to the top, to the top move slow
So I can make it last
Take some notes if you want boring teaching class uh
Get dumb shit once ya heard
But that's in the past
Now your girl and her girlfriend they come back and ask
If I can take them on a whirlwind
I didn't lean in so fast
She's glidin just like the ice in that Rihanna house
Give me that, kick, sit back and relax
Close yo eyes and imagine that
Imagine that, oh oh oh
Ridin too fast
Oh, ya already you don't rush a test
I don't wanna crash
Just give me control and we'll go
Baby, I just wanna be good to ya

[Chorus: x2]

Bad bitch, girl I think I might get used to ya
I'm gon have to take yo number when I'm through with ya
All I ask of you is try to earn my memory
Make me remember you like you remember me

[Verse 3:]

She's touchin me and I'm touchin er
She whispers, I might be in love because
So I put it down like a lover does
She looks at me with love in her eyes
Says baby, I wanna love you tonight
And that's no surprise
That's no surprise I wish I could lie
But I want something this girl's got me remembering
That love feels I'm feeling

Like I did then when I was in it
And I'm stuck now high in the clouds
Some stories I'll never get down
Makin promises upon promises
Like girl, I just wanna be good to ya

[Chorus: x2]

Bad bitch, girl I think I might get used to ya
I'm gon have to take yo number when I'm through with ya
All I ask of you is try to earn my memory
Make me remember you like you remember me

Remember me, remember me, remember me, remember me
