

Remember

SoMo

Mmm mm
Mmm mm whoa oh
Yeah

Hourglass your silhouette
Hours pass you're soakin' wet
Rain is followin' you there
Wish upon stars that leave you bare

Thinkin' back to finer days
Hours pass you fall away
Thinkin' back
Remember all that
Remember all that and you'll see

Remember the dancin'
Moonlight fallin'
Remember the way it felt
When I would call
Sittin' that way
In this old truck rollin'
Remember the night broken down in the dark

Remember the laughter
Think of that chapter
Remember the way it felt when we got home
When the light turns a little bit gold
And you dream of that call
Remember it all mm
Yeah oh
Remember it all
Yeah all
Oh

Photographs they line your bed
Memories above your head
Hoping dreams'll take you where
The memories'll put you right there

Remember the dancin'
Moonlight fallin'
Remember the way it felt
When I would call (Call)
Sittin' that way
In this old truck rollin'
Remember the night broken down in the dark (Dark)

Remember the laughter
Think of that chapter
Remember the way it felt when we got home
When the light turns a little bit gold
And you dream of that call

Remember the dancin'
Moonlight fallin'
Remember the way it felt
When I would call (Call)

Sittin' that way
In this old truck rollin'
Remember the night broken down in the dark (Dark)

Remember the laughter
Think of that chapter
Remember the way it felt when we got home
When the light turns a little bit gold
And you dream of that call
Remember it all mm
Yeah oh
Remember it all
Yeah all
Oh
