Say they don't come when you call
I know you've waited for me, baby
I know you don't want me leaving
I know you want me to stay, baby
I know you want no deceiving
I know you want me to say it
I know you want me to stay
I know you know that I know it
But do you hear what I say, love?

Middle of the night
You can call anytime
Every night, on my mind
Love you like all the time
I'm the one you want
The one you find
Only 'round storytime
I will love you right in the night
Do you want this love right here, I'll let go
Do you want a man like me who says so?
Man in all black, with a ring of this smoke
New age fast, with a bit of that stroke
Girl you know I gotta give you it slow
Guys like me, I know things a bit more
I like things when I sit in control
I'm your king, be the queen of my throne

Girl, you know you don't need reservations
You can come here anytime
You don't need no hesitation
You don't need nothing to hide
Girl, you don't need reservations
You can come here anytime
You don't need no hesitation
Nothing to hide

She just wanna smoke a lot
She really wanna feel like she made it
She just wanna love a lot
She really wanna touch, stimulate it
La-la-land lover
You know I'm the man, dontcha?
Five in the morning baby
See the way I'm playing, dontcha?
I been going crazy without you baby
I need you with me
I need you, lady
I'm holding my hand now
Hold out your hand please
Love me, oh baby
Love me, oh baby
