

Salvation

SoMo

Give me this
Can you give me that
Send a pic
Then you send it back
This is it
I need all of that
Baby, oh
So right when you love me back
So alive when you touching that
Oh, don't wait

This is our salvation
A rehabilitation
From everything I thought
That I wanted before
The way you rock that body
Could really hurt somebody
Think I left my conscience
Out on the floor

Girl ya been sinnin', huh
Needed some deliverance
We should make a cinema
Call it a remembrance
Oh no no
Nobody interrupt
You should guide me into ya
Safe and sound

Girl you love sinnin', huh
Dressed in disguise
When I slide through
Slide off the surprise
Feel your heart beat
Pump, pump up the size
Drip, drop with it
Know I love when you ride

We could bring the salvation
Love in our style
When you come will you let me know?
Vibration
You should drop that
Girl you know it's a weapon
Oh lord look at that girl
She's so cold
Look at that girl
She's so bold
The way she knows, oh

This is our salvation
A rehabilitation
From everything I thought
That I wanted before
The way you rock that body
Could really hurt somebody
Think I left my conscience

Out on the floor

This is our salvation

A rehabilitation

From everything I thought

That I wanted before

The way you rock that body

Could really hurt somebody

Think I left my conscience

Out on the floor
