

Southside

SoMo

Come to the Southside
Come, come to the South
Would you come, come to the Southside?
Come to the Southside
Would you, would you come to the Southside?
Come to the Southside
Would you, would you come to the Southside?
Come to the Southside
Would you, would you come to the Southside?

We've been fightin'
What we're trying to escape
Need to feel it
Give me something to embrace
Speak my language
Love and touch me
Hold me right
Ain't the kinda man to leave you when you cry

Now, my love language is grippin'
In the moonlight while you're drippin'
I can't take when you're not close and the moon beams on division

Told you what I wanted
Still you're questionin' why
What kinda man am I?
Why don't ya come and find

Come to the Southside
Come, come to the South
Would you come, come to the Southside?
Come to the Southside
Would you, would you come to the Southside?
Come to the Southside
Would you, would you come to the Southside?
Come to the Southside
Would you, would you come to the Southside?

We've been hidin'
From these feelings for to long
Tired of singin' the same feelings in these songs
Need you right here
Was the point I tried to write
Ain't the kinda man to lead a double life

Now my love language is slippin'
The world lies but I didn't
I can't take when you're not close
And the world feels like it's missin'

Told you what I wanted
Still you're questioning why
What kinda man am I?
Why don't ya come and find

Come to the Southside
Come, come to the South

Would you come, come to the Southside?
Come to the Southside
Would you, would you come to the Southside?
Come to the Southside
Would you, would you come to the Southside?
Come to the Southside
Would you, would you come to the Southside?

They won't
They won't
They won't
Say you wanna come to town with me
Don't say you wanna run away and leave
Say you wanna come to town with me
Or do you really wanna run away and leave?

Come to the Southside
Come, come to the South
Would you come, come to the Southside?
Come to the Southside
Would you, would you come to the Southside?
Come to the Southside
Would you, would you come to the Southside?
Come to the Southside
Would you, would you come to the Southside?

Comin' to the Southside
Comin' to the Southside
Comin' to the Southside
Comin' to the Southside
Comin' to the Southside
Comin' to the Southside
