

Time It

SoMo

Time it
Time it
You can go and wind it
Wind it up and dip it down
Line it up and grind it
Time it
Time it
You can go and wind it
Wind it up and dip it
Wind it, wind it up and dip it

Time, time it
Time it
You can go and wind it
Wind it up and dip it down
Line it up and grind it
Time it
Time it
You can go and wind it
Wind it up and dip it
Wind it, line it up and dip it

Time it
Time it
You know how I like it
Every time you ride it
Make me feel it
Oh whoa whoa
Don't fight it
Baby you can guide it
We can keep it private
Keep it on the low low low
Be the pilot
Take it high and fly it
Spread your wings and glide it
They don't have to know know know
No lying
I think I can find it
I won't keep you waiting
Time to let it blow blow blow

Time it
Time it
You can go and wind it
Wind it up and dip it down
Line it up and grind it
Time it
Time it
You can go and wind it
Wind it up and dip it
Wind it, line it up and dip it

Time, time it
Time it
You can go and wind it
Wind it up and dip it down
Line it up and grind it

Time it
Time it
You can go and wind it
Wind it up and dip it
Wind it, line it up and dip it

Time it
Time it
You can go and wind it
Wind it up and dip it down
Line it up and grind it
Time it
Time it
You can go and wind it
Wind it up and dip it
Wind it, wind it up and dip it

Time, time it
Time it
You can go and wind it
Wind it up and dip it down
Line it up and grind it
Time it
Time it
You can go and wind it
Wind it up and dip it
Wind it, line it up and dip it

Tie me up
Inside my head
I'm floating in the rafters
Say you want it
Say you want it
I'm gon' hold you after
Tell me all your secrets
Tell me all the things
You have to
Give me all the reasons
That your heart is beating faster

Time it
Time it
You can go and wind it
Wind it up and dip it down
Line it up and grind it
Time it
Time it
You can go and wind it
Wind it up and dip it
Wind it, line it up and dip it

Time, time it
Time it
You can go and wind it
Wind it up and dip it down
Line it up and grind it
Time it
Time it
You can go and wind it
Wind it up and dip it
Wind it, line it up and dip it
