All night
Visualize all night long
We could just hold tight
Making love all night long

See your lips
See your thighs
Hypnotized
By that night
I'm falling
I believe
See your wings
Angel please
Drink your wine
Think it's time
You called on me

Then you opened up your eyes
Visualize
How'd you'd pop it back and forth slow
You'd tell me sweet little lines
Visualize
How you'd put your hand on

What you want
Free your mind
Free your mind up
Girl it's time
To visualize
What you want
Free your mind
Free your mind up
Girl it's time
To visualize
What you want

Let's celebrate
We could lie back
Baby pop champagne
See you, see you light up
I feel you change
Visualize us
Playing one more game

Yeah
On your left
On your right
I'm your type
Reason why
Try me
This is real
This is life
You're the sign
10 over 9
And you saved me

Then you opened up your eyes

Visualize
How you'd pop it back and forth slow
You'd tell me sweet little lines
Visualize
How you'd put your hand on

What you want
Free your mind
Free your mind up
Girl it's time
To visualize
What you want
Free your mind
Free your mind up
Girl it's time
To visualize
What you want

Let's celebrate
We could lie back
Baby pop champagne
See you, see you light up
I feel you change
Visualize us
Playing one more game
