

deeper

Son Little

Before we go deeper
Let us all say a prayer
On our way back from Heaven
And are you from down there
Isn't it clear for you?

Deeper we go
Closer to home

We should be breathing
Just as deep as we can
I think we should open
Every window and then
Let all the wind rush in

Deeper we go
Closer to home

Standing with a horse by the sea
Facing south, Apollonia howling at the moon
Standing by the first floor porch screen door
And been standing there in early June

I know you remember
It was burned in your skin
Tattooed down in Heaven
Ooh
Come and know love again
And now I'm only in it (Standing with a horse by the sea)

Deeper we go (Facing south, Apollonia howling at the moon)
(Standing by the first floor porch screen door)
Closer to home again, yeah (And been standing there in early June)
(Standing with a horse by the sea)

Deeper we go (Facing south, Apollonia howling at the moon)
(Standing by the first floor porch screen door)
Closer to home again, yeah (And been standing there in early June)

Ooh
Ooh
Ooh
