

Phantom Killer

Son Little

Another day
Another chance to
What's that dance babe
Slip and sliding
Feel something
Shift inside you
What did we miss?
Where's this bitch hiding?

Another day
Another chance to
What's that dance babe
Slip away
Feel something
It was right beside you
[?] fade into
A million shades of grey

Here comes the phantom killer
And whoop! There he goes
Nobody sees the killer
And nobody knows
[?] now

I don't know where you been
But you can't, you can't come here
I was here but disappeared
How to make this clear?
I've got a second skin
And I will shed it
Prospects are looking dim
Don't you get it?

Girls gone viral

Here comes the phantom killer
And whoop! There he goes
Nobody sees the killer
And nobody knows
Here comes the phantom killer
And whoop! There he goes
Nobody sees the killer
And nobody knows
