

suffer

Son Little

Everything is fine
You know that is a lie
Tired of wrestling with the ties that bind
Tired of running wild
Either I am yours and you are mine
Or maybe we wasn't

But we don't have to suffer, you and I
We don't have to wade in the trenches every night
Said we don't have to follow in a line
We don't have to wait in the shadows for the sunshine

Here's my best advice
No don't you waste my time
In a different light
We are shining
In a warmer light
We are shining bright

But we don't have to suffer, you and I
We don't have to wade in the trenches every night
Said we don't have to follow in a line
We don't have to wait in the shadows for the sunshine

Said we don't have to suffer
We don't have to wade

We don't have to suffer, you and I
We don't have to wade in the trenches every night
Said we don't have to follow in a line
We don't have to wait in the shadows for the sunshine

Said we don't have to suffer, you and I
We don't have to wade in the trenches every night
Said we don't have to follow in a line
We don't have to wait in the shadows for the sunshine

We don't have to suffer

We don't have to suffer, you and I
We don't have to wade in the trenches every night
Said we don't have to follow in a line
We don't have to wait in the shadows for the sunshine

Said we don't have to suffer
We don't have to wade
We don't have to follow
We don't have to wait in the shadows, no no no no...
