

Enough of Our Disease

Son Lux

I've had enough of our machines
I'm giving up
And I am letting down
I've had enough of our machines
I'm giving up
And I am letting down

I've had enough of our disease
I'll pick it up
And I will walk away
I've had enough of our disease
I'll pick it up
And I will walk away

I'm asking you to take
I'm asking you to take
I'm asking you to take
I'm asking you to take
I'm asking you to take
To take
To take
