

## Part of This

Son Lux

I don't want to be a part of this  
I don't want to share the blame  
I don't have to know the body count  
I don't want to see my face on this  
I don't want to be ashamed, no  
I don't have to know the body count

I don't wanna have to fight you anymore  
But I will, I will  
I don't wanna have to fight you anymore  
But now I will

Now I want to be a part of this  
Now I want to feel the blame  
Now I have to know the body count  
Now I have to see my face on it  
Now I have to be ashamed  
Now I have to know the bodies count

I don't wanna have to fight you anymore  
But I don't wanna have to fight you anymore  
I don't wanna have to fight you anymore  
But I'm not gonna fear, you're holier  
I don't wanna have to fight you anymore  
But I will, oh, but I will
