Plans We Made

Son Lux

I'm not asking for release
I'm not asking to forget, ooh
Never regret what you've given me
What is permanent remains
Despite the plans we make (Made)
Some will walk, some will run
But as we go, we lose everyone
Somehow, somehow

And I'm afraid to let you go
I'm afraid to let you go
I'm afraid to let you go, oh, let you go
And I'm afraid to let you go, oh, let you go

I'm not asking for release
I'm not asking for release

I'm afraid to let you go
I'm afraid to let you go
I'm afraid to let you go
I'm afraid to let you go
Don't let me let you go
