# Plans We Make

**Son Lux**

```
Do I detect the changes I create
Or create the distance I detect
I only wanted to correct it
Tried to finish what I never made

I been feeling off so long
Not sure I'd trust me were I on
Pray to wake up someone else
So I wake up at someone else's

I've been afraid to let you go
I've been afraid to let you go
I've been afraid to let you go
I've been afraid to let you go

I've been afraid to let you go
I've been afraid to let you go
I've been afraid to let you go
I've been afraid to let you go
```
