

# **Tell**

**Son Lux**

Tell me anything you want to tell me  
I have nothing to say  
I have nothing to say

Tell me anything you want to tell me  
I have nothing to say to you  
But you have everything to say to me

Tell me anything you want to tell me  
I have nothing to say  
I have nothing to say to you  
But you have everything to say to me

You have everything to say to me
