

Drive

Son Mieux

In the rear-view years go by
A past life I glorify
A gold age that never rusts
Is memory a friend that I can trust?

Singing, oh my God
It's in my sights
The interstate to paradise
With the windows down
I feel my soul revive

I take the wheel and drive
(Say my last goodbye)
Take the wheel and drive
(I leave my past behind)
For the great unknown
(Say my last goodbye)
For the great unknown
(I leave my past behind)

Daydreams in the afterglow
Headlights start the show
In the fade out you never know
How many miles that you've got left to go

Singing, oh my God
Neon lights
That lead the way to paradise
With the windows down
I feel my soul revive

I take the wheel and drive
(Say my last goodbye)
Take the wheel and drive
(I leave my past behind)
For the great unknown
(Say my last goodbye)
For the great unknown
(I leave my past behind)

Everything I'm seeing looks new when I look up
Everything I ever assumed has all been shook up
(Take the wheel and drive)
(Take the wheel and drive)
I take the wheel and drive
With a steady hand I testify till the morning light
Is everything in sight?

Take the wheel and drive
(Say my last goodbye)
I take the wheel and drive
(I leave my past behind)
For the great unknown
(Say my last goodbye)
For the great unknown
(I leave my past behind)

I take the wheel and drive
I take the wheel and drive
I take the wheel and drive
