Even

Son Mieux

Have you even tried to love her?
You don't know how, you don't know how
Did she ever blow your cover?
Was that's a fine, was that's a fine
And even when you tried to hold her
You don't know how, you don't know how
Can you feel it going colder?
It's time to hide, it's time to hide

Well how long can we breathe in?
Have we even tried, are we even?
Well how long can we breathe out?
Let's leave it all behind, let's leave it all be-

Well can we say goodbye now lover?
Do you know how, do you know how?
Can we hold our breathe much longer?
Your time is up, your time is up

Well how long can we breathe in?
Have we even tried, are we even?
Well how long can we breathe out?
Let's leave it all behind, let's leave it all be-

I've been hiding all my tears
I keep losing myself
I've been hiding for the cold now
Yes, to calm down
I, I've been hiding all my tears
Am I losing myself?
I've been hiding for the cold now
I can't calm down

Have we even tried, are we even?
Well how long can we breathe in?
Have we even tried, are we even?
Well how long can we breathe out?
Let's leave it all behind, let's leave it all be-

Oh, how long
Have we even tried, are we even?
Oh, how long
Have we even tried, are we even?
