Everyday

Son Mieux

(Everyday)

There's a light on while your sleeping
Your dreams they don't settle down

There's a rising sound on main street
As the day meets

(Everyday)
At first light you feel
You're too tired
You've got a lot to do

(Everyday)
Your head stings
You feel your phone ring
Another day begins

Oh we're
Always out of touch
Always in a rush
To reach a
Better day

Oh it's all we seem to know
Welcome to the show
We live in
Everyday

Tunnel vision times
On a black screen
In the backseat of an endless trial

The safety belt's on
And you're trapped in, but it's stretching

(Everyday)
A peek outside through the window blinds
Stops the tick of time

(Everyday)
A bright sight
And now you realize
A better day arrived

Oh we're
Always out of touch
Always in a rush
To reach a
Better day

Oh it's all we seem to know
Welcome to the show
We live in
Everyday

I'm sleeping but I'm wide awake

Let the day dream my way out of it

Oh we're
Always out of touch
Always in a rush
To reach a
Better day

Oh it's all we seem to know
Welcome to the show
We live in
Everyday
