

Leads

Son Mieux

If the longer road
Can lead me right back to you
I'll fall off the map
Go down and out to see it through

It's alright
If it leads me right back to you
It's alright
If it leads me right back to you

I'll be right here
Though all of it hurts
I know what it's worth
I'll be right there
The more that I turn
The brighter you burn
I'll be right there

It's alright
If it leads me right back to you
It's alright
If it leads me right back to you

I'll be right here
Though all of it hurts
I know what it's worth
I'll be right there
The more that I turn
The brighter you burn
I'll be right there

I'll be right here
Though all of it hurts
I know what it's worth
I'll be right there
The more that I turn
The brighter you burn
I'll be right there
