

# Pretty Strangers

Son Mieux

Lately I've spent all my savings  
Feasting with a friend I never saw before  
I've been taking whatever I am given  
When the morning comes, I friendly show the door

Hear 'em whisper  
"One more blister"  
As I kiss them  
Goodbye, good day (Good day)  
"One more blister"  
Goodbye, good day (Good day)

Pretty strangers  
I'm coming down from your high  
Red eyes and my mouth's dry  
Down just like before  
Pretty strangers  
Wearing off from my mind  
Guess we had a good time  
Goodbye and good day

I'll be on my way  
I'll be on my way  
I'll be on my way  
I'll be on my way

Got a big heart for tiny love  
Midnight girls in the neon glow  
Where you've been, tell me how you do  
Let's go waste some time  
But don't you get your hopes up high  
You can try to fight, but I've never lost a war

Pretty strangers  
I'm coming down from your high  
Red eyes and my mouth's dry  
Down just like before  
Pretty strangers  
Wearing off from my mind  
Guess we had a good time  
Goodbye and good day

I'll be on my way  
I'll be on my way  
I'll be on my way  
I'll be on my way
